◆ Represents a lite feature

PaperPort SE “Lite” feature explanations:

Visual Document Management

PaperPort SE only displays true document thumbnails for image files including PDF, MAX, TIFF, BMP, GIF and JPG. All other file types are represented by a document icon.

All-in-One Search

PaperPort SE will only allow you to search by document name and keyword properties. It will not search the content of documents including the content of image files.

Make PDF files from any application

PaperPort SE only creates image PDF files

PDF Viewer with Page Thumbnails

PaperPort SE “Page Thumbnails” will only view Image PDF files (MAX and TIF are also viewable)

PDF Stacking and Document Assembly

PaperPort SE will only operate on PDF Image files (Including MAX)
